

# mate-mono

With nearly 80 years of experience, Komatsu Matere has been a trailblazer in developing new textiles and dyeing processes for various industries, from automobile upholstery to high-end designer labels. As a sustainable brand, Komatsu Matere breathes new life into scrap materials and waste through their line of minimum-waste goods, named "mate-mono." This innovative approach not only benefits the environment but also offers unique and creative solutions for consumers, showcasing how responsible practices can coexist with style and sustainability.
